

Todd M. Rogow, MPA, CHCIO
Chief Information Officer and Senior Vice President
Healthix, Inc.

Todd M. Rogow, MPA, CHCIO joined Healthix in 2015 as the Senior Vice President and Chief Information Officer, where he is responsible for providing the vision, strategy and day-to-day operational leadership for all technical aspects of the company. Todd brings a wealth of knowledge and industry experience and has worked in the health information exchange space for over ten years.

Todd joined Healthix during a period of rapid growth and innovative change. He has fulfilled a critical role of building and leading Healthix's Information Technology function, migrating its technology development and operations in-house through the implementation of next generation application software and completing the technical systems merger of several HIE organizations that now make up Healthix. He has driven a comprehensive security program at Healthix that includes the onboarding of a Chief Information Security Officer and achieving SOC2 security.

Before joining Healthix, Todd served as the Chief Technology Officer at HealthInfoNet, Maine's State HIE. With 20+ years of experience, primarily in directing technical projects, he has provided business and consulting services to a range of Fortune 100 companies and many government agencies including the Department of Defense. Todd has served as a subject matter expert at conferences and on national and international panels and at conferences on the subject of healthcare technology. He has also authored a number of publications and case studies.

Todd has a Master's in Public Administration and a BA from the University of Vermont. He is a certified Project Management Professional (PMP) and a 2012 graduate of the Hanley Center's Health Leadership program. In 2016, he became one of only a few hundred Certified Healthcare CIOs in the nation.
