Healthix

Exchanging information to transform patient care.

Improving quality and reducing costs though interconnectivity

Healthix is a key facilitator of health information exchange (HIE) and a partner in the State Health Information Network of New York (SHIN-NY). We provide a connected network of timely patient information, facilitate care coordination, and promote cost-effective solutions. We are the largest regional health information organization (RHIO) in New York State, supporting over 200 provider organizations, labs and health plans across greater New York.

Healthix optimizes workflow and care coordination -- while ensuring privacy and security.

Optimize Workflow

• Obtain a comprehensive view of your patients' health information with access to clinical data from hundreds of Healthix participating healthcare facilities.

• Optimize workflow through "single sign-on" access to Healthix through your electronic health record.

Coordinate Care

• Reduce duplicative tests and avoidable hospital re-adminssions by accessing diagnostic reports, medication lists, including laboratory and radiology reports.

• Monitor and manage complex patients through customizable, real-time clinical event notifications.

• Know when your patients have been admitted or discharged from the emergency room or an inpatient stay with real-time alerts routed to your email or smart phone.

Secure Messaging and eReferrals

• Simplify electronic patient referrals through secure HIPAA compliant messaging.

• Use direct-enhanced messaging to coordinate care with downstream providers to meet Meaningful Use requirements.
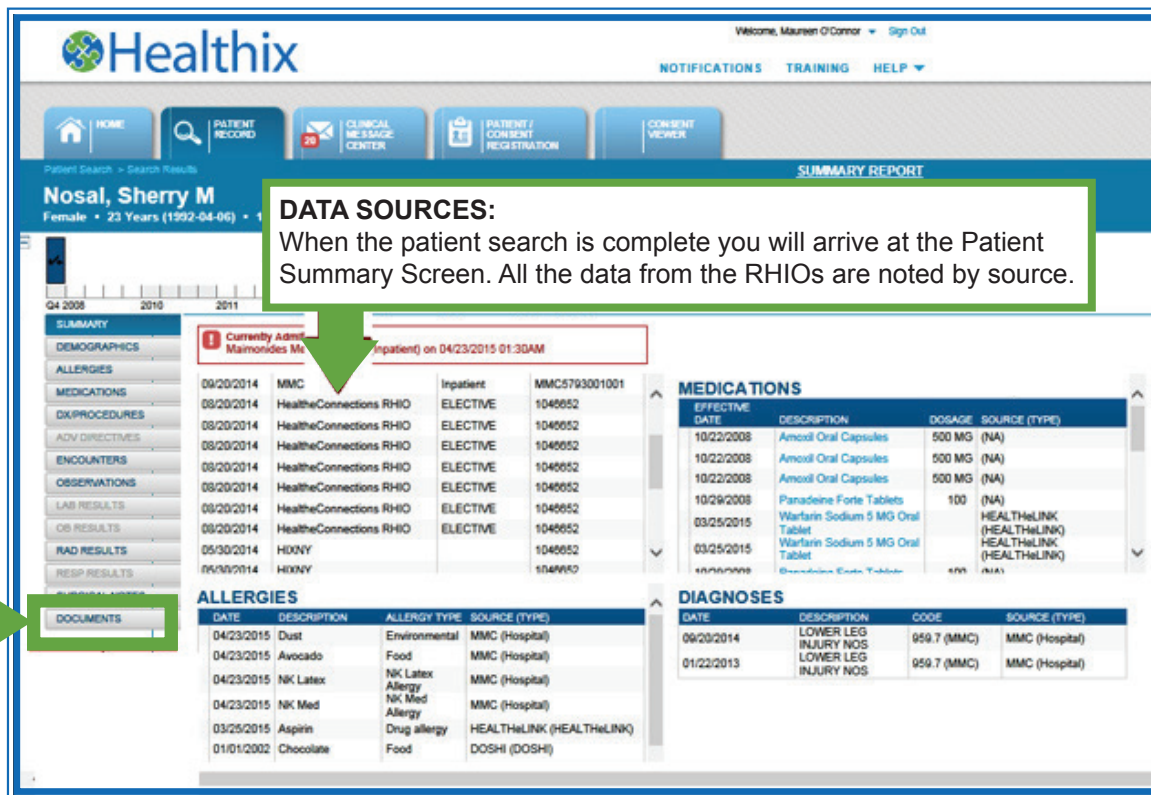

Privacy and Security

• Healthix ensures patient privacy through compliance with statewide and federal privacy and security policies.

• With expressed written consent from your patient, you can view information and receive event notifications from participating Healthix providers and security policies.

Secure access to patient information, wherever and whenever it's needed

DOCUMENTS:
Clicking on the Documents Tab brings you to a page that contains all the Continuity of Care (CCD) documents for each RHIO that has data. Data will vary depending on the the originating RHIO.

DATA SOURCES:
When the patient search is complete you will arrive at the Patient Summary Screen. All the data from the RHIOs are noted by source.

Healthix offers a complete range of technical and implementation services to facilitate clinical information exchange

Healthix Portal

Now when you query a patient in the Healthix Portal you will receive patient data from all RHIOs in the Statewide Health Information Network of New York (SHIN-NY). The sPRL search allows providers to view a comprehensive picture of a patient's care across regions and over time. With increased patient mobility and expanded healthcare delivery options, Healthix provides access to the bigger picture 24/7.

RHIOs Contributing Data:

- **Bronx RHIO** with 2.2 million patients in the Bronx
- **HealtheConnections** with 1.6 million patients in Syracuse and to the North
- **Healthix** with 16.0 million patients in New York City and Long Island
- **HEALTHeLINK** with 2.4 million patients in Buffalo and Western New York
- **HealthlinkNY** with 1.1 million patients in Westchester, Hudson Valley, and the Southern Tier
- **Hixny** with 3.1 million patients in Albany area and to the North
- **NY Care Information Gateway:** NYC Health + Hospitals with 2.1 million patients and Eastern Long Island with 1.1 million patients
- **Rochester Rhio** with 2.9 million patients in Greater Rochester

Where efficiency, communication and better patient care come together.
