Imagine if...

- You're unexpectedly injured and taken to the ER
- Your specialist wants you to get blood tests and x-rays, but you had these tests at a walk-in center the week before
- Your physician could see your full medical history from your first visit
- You have a chronic illness, such as high blood pressure or asthma, and your doctor could receive alerts anytime you go to an ER or hospital

No need to imagine — it's possible

SECONDS CAN MATTER IN AN EMERGENCY... ACCESS TO YOUR MEDICAL INFORMATION CAN BE VITAL
