

Overview

Healthix connects practitioners to patient data 24/7, to improve clinical outcomes, enhance care coordination and lower costs.

Healthix is the largest public health information exchange (HIE) in the nation.

As a key partner in the Statewide Health Information Network of New York (SHIN-NY), Healthix provides Participants with their patient's data from across the state.

Expanding Patient Information

Healthix data is updated with each patient encounter, providing a more complete picture of a patient's health. Data is further enriched by Participants whose data contribution meets State and Federal requirements for the Common Clinical Data Set:

- Demographics (Name, Gender, DOB, Race, Ethnicity, Language)
- Allergies
- Medications
- Medication Allergies
- Smoking Status
- Immunizations
- Encounters
- Observations
- Vital Signs (Hgt,Wgt, BP, BMI)
- Pharmacy Fill Data
- EMS Run Sheets
- LabTests, Values / Results
- Radiology Reports / Images
- Other Diagnostic Results
- Diagnoses
- Problem Lists
- Procedures
- Functional / Cognitive Status
- Care Plans / Team Members
- Discharge Instructions / Clinical Summaries
- Advanced Directives
- eMOLST Data
